YOUR SOLUTION

Your new machine with the **HOMAG App Plus Pack.**
More service. More overview. More transparency.

Whether it's dessert or vacation days – it's always nice to get a little more. That's why we're offering the HOMAG App Plus Pack, complete with 5 featured apps from tapio and HOMAG, as a bonus offer with your new machine. With this app pack, you'll have access to lightning-fast service, transparent machine status information, and a complete tool overview at your fingertips at all times - on your tablet, smartphone or PC.

Best of all, you'll receive four of our apps, ServiceBoard, MachineBoard, serviceAssist and twinio, completely free of charge until the end of your machine's warranty. Then you can decide which apps to continue with. Plus, you'll receive MMR Mobile, the smart entry-level solution for analyzing your machine fleet, free of charge forever.

We want to make it as easy as possible for you to try out the digital assistants.
Get started with the App Plus pack from HOMAG today!

Get real added value for free.
During the entire warranty period of your new machine.

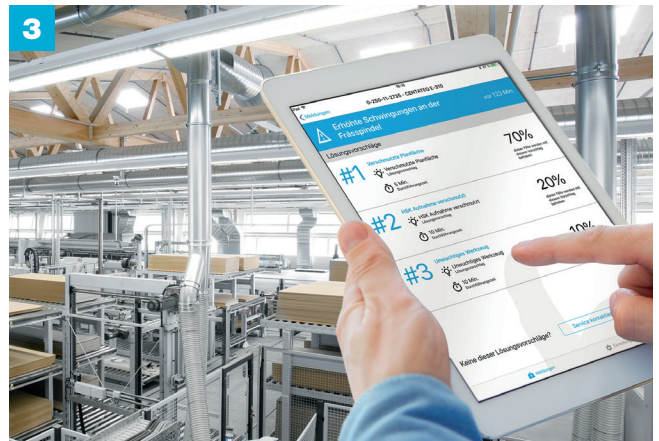

ServiceBoard
The app for machine service and maintenance.

- Save time and costs: All maintenance and service cases at a click – current and resolved service tickets included.

- With just a few clicks, you create service requests and tickets, including photos. The right service technician will then contact you promptly.

- Intuitive and predictive: Colors show you the urgency of different maintenance tasks.

- Telephone or video diagnosis: Together with our specialists, you can solve your problem the way you want.
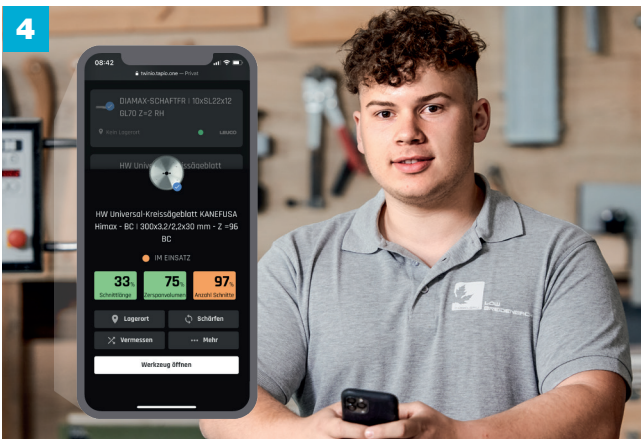

2

MachineBoard
Machine status and remaining runtime in one app

- You have an overview of the status of all machines – with remaining runtimes and the time until the next necessary interaction.

- Push notifications in real time: The app provides you with detailed information and data.

3

serviceAssist
Solve error messages yourself with the app

- When even experienced machine operators are at a loss, serviceAssist helps – with suitable and proven solution suggestions.

4

twinio
Manage tools digitally

- You have an overview of all tool data from different manufacturers – as a web app on your smartphone, tablet or PC.

- Individual data: Add your own parameters per tool and define limit values of selected parameters.

5

Forever free of charge:

MMR Mobile
The tool to analyse all of your machinery

- Machinery to go: You are always informed about the performance of your machinery, no matter where you are.

- Simple analysis: Through various evaluations you recognize weak points in the production.

- Identify potentials: Key figures and diagrams enable you to recognize possible approaches for optimization.

The final step to **the apps:**
Activation.

To use your apps, you need a central user account with tapio. tapio is our partner for secure access to our apps and other apps in the tapio store. At the same time, tapio takes care of user administration and ensures certified, secure data exchange. If you like, we will prepare everything for your account, then all you have to do is activate it. You will receive the necessary activation link from us when the new machine is delivered.

Click on it, activate your account and start using the apps!
